CITY LIBERAL WITH MEN WHO OFFER SERVICE

Married employees of the city of Phoenix will not suffer loss of pay or position through serving their country. Single men too, will have their positions retained for them, but during the period of service either in the Reserve Officers' Training camp, or in actual service, they will draw but half pay from the city. Both married and single men will have deducted from the pay allowed them by the city, the amount they may receive from the government.

All this was decided upon at the special meeting of the city commission yesterday morning. It followed out the general idea presented to the commission at a recent meeting by Mayor Peter Corsteyn who at the time consented to allowing the matter to go over until an opinion could be secured from the city attorney as to the powers of the commission in that respect.

The matter was again called to the attention of the commission yesterday morning by Mayor Corsteyn and this brought a motion from Commissioner Jones that the city employees be given half pay for three months. There was no second to the motion.

Commissioner Woods then offered a motion that all city employees who enlist or who attend the training camp be allowed \$150 and the single men half pay. City Clerk Thomas thought this was barring certain men from enlisting as they could not afford to go and leave their families without enough to support them. City Manager Craig said it would make a very slight difference to allow the married men full pay, as there were but two so far who had been accepted for attendance at the Officers' Reserve Corps training camp.

Commissioner Woods again withdrew his motion and moved that the married men be allowed full pay and single men half pay, their positions held open for them, and the amount of any compensation they may receive from the government during their period of service be deducted from the salary allowed by the city. This motion received a second from Commissioner MacLean and carried.
